

# HR-160

## UV Currency Detector

**Features:**

- Ultraviolet Detection
- Water Mark Detection
- Magnetic Ink Detection
- It is capable of checking banknotes of different countries

All bank notes (currency), travelers cheque, bank cheque, passport and other important documents having some security features can be checked to stop counterfeiting and forgery. To check the authenticity of documents, bank notes and security papers, you should be familiar with their security features. Some security fibers, printing and threads are visible only under UV light.
